pilani, Rajasthan - 333031, India

OBJECTIVE

Enthusiastic and detail-oriented software engineer with a solid foundation in programming, data structures, and software development. Seeking an entry-level position to apply my technical skills, problem-solving abilities, and passion for technology in contributing to innovative software solutions and gaining hands-on industry experience.

EXPERIENCE

- **brainware matrix solutions** august 2024 - present
web development intern Remote
 - As a Web Development Intern working remotely, I collaborated with a dynamic team to design, develop, and maintain responsive web applications. My responsibilities included front-end development using HTML, CSS, and JavaScript, and back-end integration with APIs. I contributed to debugging and optimizing web performance, based on client feedback. This role enhanced my skills in problem-solving, teamwork, and adapting to a virtual work environment while meeting project deadlines.
- **Codeclause** september 2024 - present
web development intern Remote
 - Working on an e-commerce project and understanding the full-stack development process. The project involved building a user-friendly interface for browsing products, integrating secure payment gateways, and implementing features like product search, cart management, and order tracking. technologies such as HTML, CSS, JavaScript, and a back-end framework (like Node.js, Django, or Flask) for server-side logic are being used. This project enhanced my understanding of database management, API integration, and the importance of creating a seamless user experience in online shopping platforms and experience of collaboation with a dynamic team .

EDUCATION

- **Indian Institute of information and Technology, Bhagalpur** 2020 - 2024
Bachelor of Technology Bhagalpur, India
 - GPA: 7.98/10
- **KVM PUBLIC SCHOOL** 2019
sr. sec. Education sikar, India
 - 62.40%
- **VIDHYA ASHRAM PUBLIC SR. SEC. SCHOOL** 2017
Secondary Education PILANI, India
 - 90.50

PROJECTS

- **food ordering website** Nov2022 - Dec2022
Tools: [html, css, javascript]
 - created a website using html css and javascript , which has functionalities like accepting single or multiple order of user , and takes user location via map to deliver food at its right destination.
- **amazon data dashboard** august 2024
Tools: tableau
 - Developed an interactive dashboard using Tableau to visualize key business metrics and insights. The dashboard included dynamic charts, graphs, and data filters to enable real-time analysis of sales performance, customer behavior, and market trends. Integrated data from multiple sources, applied advanced calculations, and designed intuitive visuals to support data-driven decision-making. The project enhanced my skills in data visualization, storytelling with data, and creating user-friendly interfaces to present complex information clearly and effectively.

]

SKILLS

- **Programming Languages** :python, c++
- **Web Technologies** :html, css, javascript
- **Database Systems**:excel, sql, tableau, powerBi
- **Academic skills** :oops, dbms, operating system, dsa

LEADERSHIP EXPERIENCE

- **engyuma samwad manager**

2023

- organised and handled various debate and all other competetions smoothly.

CERTIFICATIONS

- **certificate of AI & IOT in Biomedical Engineering: IIITBH**
- **Certicate of masterclass in sql: wscube**

may 2023
september 2024

ADDITIONAL INFORMATION

- **Languages:** English (intermediate), Hindi (Advanced)
- **Interests:** Table tennis , badmintion , chess
